Data & CMS

MySQL · PostgreSQL · MongoDB · Shopware

DevOps, real-time & AI

Docker · Git · CI/CD · WebSockets · LiveKit · AI agents

// PATH

2024 → now — SQLI · Paris
Intern, then permanent web developer

2023 — 2024 — ESEO · Vélizy
International exchange, Data Intelligence

2021 — 2024 — ESPRIT · Ariana
Engineering degree in Computer Science, Web Technologies

2019 — 2021 — ISET · Radès
Applied bachelor's, Information Systems Development

SQLI · Web Developer (permanent) Oct. 2024 – Present
Paris, France

- Lead ongoing maintenance and optimisation for a major insurance client, bringing in AI-assisted workflows (AI agents, MCP skills) to shorten delivery times and automate code checks.

SQLI · Web Developer (internship) Feb. – Aug. 2024
Paris, France

- Improved an open-source SQLI bundle for Ibexa and Symfony, with strict code-quality standards and automated tests.
- Built custom Shopware plugins meeting the complex requirements of an e-commerce client.

Tunisian National Olympic Committee · MERN Apr. – Jul. 2023

- Delivered the mission-critical accreditation system for the African Beach Games: 3,500+ participants from 54 countries.

Carolina Tunisian Group · Laravel Jul. – Sep. 2022

- Designed and built a high-traffic e-commerce platform end to end, optimising the purchase journey.

Greenex · Laravel Jan. – Jun. 2021

- ERP automating production-data entry, making the company's management tool faster and more flexible.

Tunisair · PHP Jan. – Feb. 2020

- Statistics tool extracting and analysing data from complex B2B booking XML feeds.
